Education

Manipal University   **Sep. 2020 – May 2024**
Bachelor of Science in Computer and Communication Engineering   *Jaipur,India*

Projects

MedNet | *Reactjs,NodeJs,MongoDB,Express*   **Nov 2023**
- Developed a platform connecting patients with doctors, allowing patients to book appointments, receive online consultations, and receive prescriptions.
- Patients can also make real-time requests to the ambulance personnel, and depending on the patient's location, the nearby ambulance will respond to the patient's request
- The project includes a secure messaging system for communication between patients and healthcare providers, ensuring privacy and confidentiality.
- 〈/〉 Source Code

TalkHub | *Next.js,TypeScript,Tailwind CSS,MongoDB*   **October 2022**
- Designed and built chat application using Next.js, TypeScript, Tailwind CSS, MongoDB, Prisma, and NextAuth, ensuring a modern and efficient user experience.
- Seamlessly integrated multi-platform authentication options, including email, GitHub, Google, and Twitter, to enhance user convenience and flexibility.
- Implemented real-time updates to track user online status, fostering enhanced connectivity and user awareness.
- 〈/〉 Source Code

ShopEase | *ReactJS,NodeJS,MongoDb,Express.JS*   **November 2022**
- Developed a dynamic E-commerce website using the MERN (MongoDB, Express.js, React, Node.js) stack
- Built an E-commerce API with basic features like authentication ,authorization ,order management , cart management and payment management
- Integrated Razorpay payment gateways to facilitate safe and reliable transactions
- 〈/〉 Source Code

Technical Skills

Languages: C++, JavaScript, MySQL, Java
Technologies/Frameworks: Node.js , React js , Express js,Next js,AWS(basic understanding) , REST,GraphQL

Achivements

4 stars on Codechef *Codechef Profile*
5 stars on Hackerrank *Hackerrank Profile*
Solved more then 300 problems on leetcode *Leetcode Profile*
Hackerrank NodeJS Intermediate
Hackerrank ReactJS Intermediate
